Durable

Energy-saving

Surface-mounted roller shutter VR150

You want your house to keep in the heat in winter, and stay comfortable and cool on hot days. Roller shutters not only **shut out the outside light**, they also reduce street noise. Add to that the additional **privacy** factor, and an **increased sense of security**, which means you will never want to be without your shutters again!

**SQUARE BOX:
MORE CHOICE,
MORE DESIGN!**

Unique properties: surface-mounted roller shutter VR150

Acoustic insulation against driving rain

Durable padding to protect against scratches

Plenty of choice of box types: bevelled, square or rounded

Positive impact on your home's energy performance

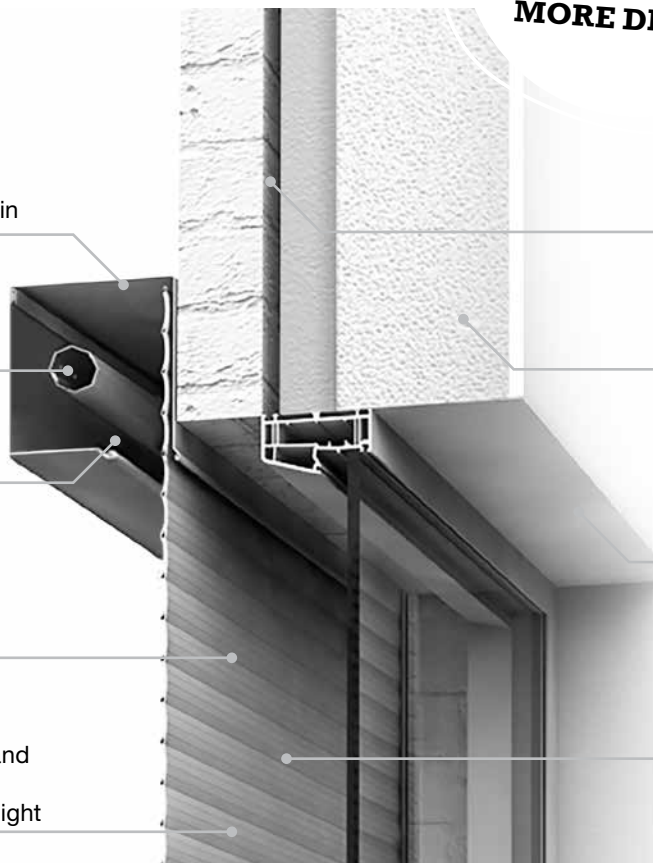

Choice of slats with or without light and ventilation slots. Remember! A roller shutter never shuts out 100% of the light

No perforation of the building shell

Ideal for newbuild and renovation

Comprehensive security package for a greater sense of security

Choose from a range of slat types and colours depending on the area of your window and your taste

Roller shutters that perfectly match your exterior joinery

All RAL colours at a standard price.
Harol also offers the standard textured coating colours from these window manufacturers at no extra cost:
